The Real Cost of Vehicle Ownership

AAA released the results of its annual "Your Driving Costs" study, revealing a **1.96 percentage increase in the yearly costs to own and operate a sedan in the U.S.** The average costs rose 1.17 cents per mile to 60.8 cents per mile, or \$9,122 per year, based on 15,000 miles of annual driving.

Fuel

↑ 1.93%

Average cost:
14.45¢ per mile

Maintenance

↑ 11.26%

Average cost:
4.97¢ per mile

Tires

No change

Average cost:
1¢ per mile

Insurance

↑ 2.76%

Average cost:
\$1,029 per year

Depreciation

↑ 0.78%

Average cost:
\$3,571 per year

AAA has published "Your Driving Costs" since 1950. That year, driving a car 10,000 miles cost 9¢ per mile, and gasoline sold for 27¢ per gallon.

Cost of Turnover

Replacing an employee can cost between \$3,000 and \$8,000

For a 150 person company, with a 25% annual turnover rate, that could mean **\$1.8 million** in yearly additional costs

Channeling our shared values

Safety

Reducing human error through more transit and protecting vulnerable road users

Equity

A focus on reducing inequality to benefit low income communities, disadvantaged groups and those with disabilities

Livability

Creating vibrant spaces that have transportation choices, affordable housing, clean air and water and protects natural resources

Mitigating Congestion

Using transit effectively to combat rising travel times, and reducing time spent driving

The bus stops at the city line, but life doesn't

- Transportation decisions need to be made on a regional basis
- Communities should be free to raise money to fund their infrastructure
- Co-ordination between communities helps make transportation more efficient and removes artificial barriers

A Vision for the Future: Urban Mass Rapid Transit

Minneapolis

Metro Transit

Result of a broad coalition between businesses, local leaders, non profits and equity groups

Serves 7 counties in the Minneapolis-St. Paul Region

Constructed the Green and Blue LRT lines, that are now breaking ridership records and connecting thousands to jobs in the region

Salt Lake City

Light Rail

Highest per-capita spending on public transit in the nation

70 percent of the region's population lives within a light rail stop

Large public relations campaign led by non-profit Envision Utah

System provides better job access than any other city in the country

Cleveland

HealthLine BRT

One percent dedicated sales and use tax from Cuyahoga County, generates \$219 million.

Serves on average 200,000 passengers a day

BRT system named the best Bus Rapid Transit System in America by ITDP

Return on investment: \$133 for every \$1 spent, generated \$6.3 billion in new development

Barriers

Transit is often seen as a social service instead of as a valuable economic development tool

Inability for communities to authorize regional transportation

Opportunities

Employers across the state are struggling to attract and retain talent, often due to transportation barriers

Young people are choosing to live in places where they can walk, bike and take transit

Increased recognition of the link between transit and economic development

Action Steps

Target and identify other stakeholders

Share information and strategies

Influence decision makers by amplifying powerful business voices
